MILITARY OF STREET ASSESSMENT OF

THE INSURGENTS SIDE

Of the Conflict for Liberty on the Island of Cuba.

DIVISIONS AMONG THE SPANIARDS

Deplorable Condition of Affairs in Havana. Ineffectual Efforts of General Marin to Prevent a Union of the Forces of Generals Gomez and Maceo,

to this city yesterday by the Havana steamer was cheering for the friends of Cuban liberty. The letters of the secret agents of the revolutionary party in Ha-vana spoke of a split among the Spanish parties on the Island, of jealousies among the military, of starvation in the city, and of a crisis in the commercial situation. Mr. F. C. Pierra translated one of the most important letters. Parts of it were

There is a very decided division between the Conservative and Reformist par-ties of the Spaniards, and they are pouring hot shot into each other's ranks ing hot shot into each other's ranks through the columns of the press. As a proof of this I send you the papers of the Conservative party, in which the editorials are written in a particularly bitter strain against their former allies. The Reformist party were in favor of the mild policy of Canada and the conservations be of Campos, while the Conservatives be-lieve in fire and bloodshed. The situation is a most critical one, and no one recognizes this fact better than the Spaniards

The excitement in Havana is increased by the fact that the government does not allow any news to be printed except that given out from the official bureau. Span-iards, as well as Cubans, know that the better part of the news given out is fabricated.

The correspondent then goes on to de-tail several engagements, in one of which a whole troop of 300 Spaniards were an-nihilated. The news given out, however, was of a tremendous Spanish victory. The

ter continues:
'The prices of provisions are rising very rapidly, and destitution in the city of Ha-vana is increasing rapidly. A great many families are now dependent for subsistence on what the government gives them—a small amount weekly. There have been times within the past few days when there has not been provisions of any kind to be bought at the public market. Even those having money to spend have been forced

"Another circumstance which aggravates matters is the fact, well known to every-body on the island, that there is very great discontent known to exist among the military friends of General Pando, whom. they think, was slighted by the govern-ment at Madrid in appointing General Weyler to the position formerly filled by General Campos. It is well known that this part of the Spanish element are far from being willing to co-operate with those who are favorable to Weyler, and that they will do anything they may safely do to make him fail. On the whole everything looks very bad for the Spaniard.

"Pay no attention to the cable dis-patches in regard to the movements of Generals Gomez and Macco. I know for a certainty that they have been operating with entire freedom and that they have re-mained in Havana and Pinar del Rio because they are not in the least afraid of being worsted by the Spaniards."

In another letter it is stated that the Business is paralyzed, and large commer-cial houses are dismissing all of their em-

Al milsa, which is supposed to be Mncoo's
main force. This band is said to be striving to effect a junction with Gomez, and
it seems in a fair way to do so, as there is
no apparent check in its advance along the
coast of Pinar del Rio.

Refugees arriving from Pinar del Rio province report that the insurgents have burned Paso Real and Palacios, which were along the line of Macco's march from the western portion of Pinar del Rio to-wards the Havana province line. The band led by Pedro Diaz, numbering

a thousand, is reported as making active movements about Guira Melena, Gabriel and LaSud, which are between the Bata-bano military line and Artemisa.

Further news is awaited with lively in-terest, as it is believed it will be proved in a very short time whother the effort of Macco and Gomez to form a junction will prove successful or not.

NEW YORK, Feb. 4.—The news brought An Exact Picture of Your Present Condition.

> How keenly the vision of the past comes home to thousands, and with how sharp a pang do we regret our vanished health and strength! As in a dream we remember our sturdy youth, overflowing with hoisterous vitality. We recall our strong and lusty past, when our nerves seemed of steel, our muscles of iron and our power of endurance knew no fatigue.

How different is the picture when we suddenly find ourselves with weak and shattered norves, tired brains and exhausted bodies, depressed and dispirited, broken down alike in pervous and physical health ! We are prodigal of our powers, vigor and

energies in youth and early life. We use them up in business, work, pleasure or dissipation, and suddenly find ourselves old before our time, prestrated in health, exhausted in brain and nerve power, and left without physical energies, nerve strength or ambition. Then, like the predigal, we would from Bramwell Booth to Mayor Strong return to our former condition of strength and health.

THEIR MISSION NOT PULFILLED.

Chaupeey M. Depew and Other Prominent Citizens Not Directly Interested in Salvation Army Work Lead a Mass Meeting to Urge the Rooths' Reinstalement.

New York, Feb. 4 -- At a mass meeting held in Carnesse Hall last night it de-veloped that the people represented as well as the rank and file of the Salvation Army are opposed to the recall of Commander and Mrs. Ballington Booth to England. Among those present were: Dr. Chauncey M. Depew, Bishop E. G. Andrews, Will-lam E. Bodge, Bev. A. H. Bradford, Robert Fulton. Cutting, Rev. Josiah Strong and thousands of others. They were all opposed to it, and said so in as many words.

Luckily for us, there is that great and wonderful restorative, Dr. Greene's Nervum blood and nerve remedy, which will give back to the weakened and exhausted system the strength it has lost: the marvelous remedy which imparts strength and vigor to brain and nerves, vitalizes and invigorates all the physical powers and restores us again to that grand degree of insty strength, of bounding pulse and strong physical and nerve power, which, in ignorance or folly, we have exhausted.

Here is the proof. Mr. John C. Milroy, who is a foreman of the Meriden, Conn., Brittannia Co., has for years been noted for his enormous strength. This great strength he lost, and now he has recovered it again by using Dr. Greene's Nervum.

"Over a year ago," he says, "I suffered terribly from nervousness, headache, lack of appetite, and that tired feeling all the time. "And there is another reason," contin-ued Dr. Depow, "Commander and Mrs. Booth have become naturalized. I met them on an excursion steamer going to ters and school teachers in the second cabin. Mrs. Booth was in the second cabin, and I suggested to the 400 in the first cabin—the fashionable crowd who at the Grand Opera House are known as the crowned heads, because they wear diamond tiaras—that she be taken into the first cabin. They did so, and they found Mrs. Booth a pure and intelligent woman, and she succeeded in converting the 400, not to the Salvation Arn., but to its uses and services in the world.
